

MOHAMED BIN ZAYED
UNIVERSITY OF
ARTIFICIAL INTELLIGENCE

POWER from
KNOWLEDGE to SERVE

Join the World's First Graduate AI University

Mohamed bin Zayed University of Artificial Intelligence (MBZUAI), the world's first graduate AI university, is a research-focused institution with **199 M.Sc.** and **87 Ph.D.** students from **39 nationalities** (30% female) and **81 renowned faculty members**. Ranked **8th in NLP** and **10th in AI+NLP+CV+ML** (csrankings.org), MBZUAI's NLP department comprises **19 faculty** and **80 graduate students**.

Now hiring **Full, Associate, and Assistant Professors**, along with **graduate student opportunities** for M.Sc. or Ph.D. programs.

Faculty & Postdoctoral Positions in NLP

We're recruiting:

- ▶ Full Professor
- ▶ Associate Professor
- ▶ Assistant Professor
- ▶ Postdoctoral Researchers

Graduate Student Opportunities

Pursue your M.Sc. or Ph.D. at MBZUAI:

- ▶ Access to **world-class faculty and research infrastructure**
- ▶ Focused programs in **Natural Language Processing (NLP)**

Faculty & Postdoctoral Positions in NLP. For more information on M.Sc. and Ph.D. application requirements, programs, and how to apply, scan the QR code

Technology
Innovation
Institute

CREATING NEW OPPORTUNITIES FOR YOUR TOMORROW

At the Technology Innovation Institute, we push the boundaries of applied research with a focus on the real world of tomorrow. We make a difference to the future of the UAE and our planet by working at scale and at speed across ten dedicated research centers. We cultivate excellence and curiosity, not simply asking "why?" but also "why not?" and "what if?".

From state-of-the-art facilities in Abu Dhabi to global partnerships, we catalyze change in the fields of AI, renewable energy, advanced materials, autonomous robotics, biotechnology, cryptography, directed energy, propulsion and space technologies, secure systems, and quantum engineering.

Learn more about us on tii.ae

**NYU Abu Dhabi welcomes and
educates global citizens, and
produces knowledge that
promotes human understanding
and betters society.**

Through distinctive global liberal arts education and graduate programs, we enable students and graduates to achieve intellectual, personal, and professional fulfillment and empower them to make significant societal contributions to Abu Dhabi and the world. Through cutting-edge research, we develop knowledge, foster creativity and innovation, and help solve humanity's shared challenges. Together, we contribute to Abu Dhabi's knowledge-based economy and society, and play a central role in NYU's global mission.

JAIS Family of Models

JAIS is a family of up to 70-billion parameter LLM's, delivering superior performance and efficiency in tasks such as summarization, comprehension, and text generation.

Equitable access to AI

Fully bilingual

Bringing AI to everyone

Optimized for Arabic adaptive fine-tuning

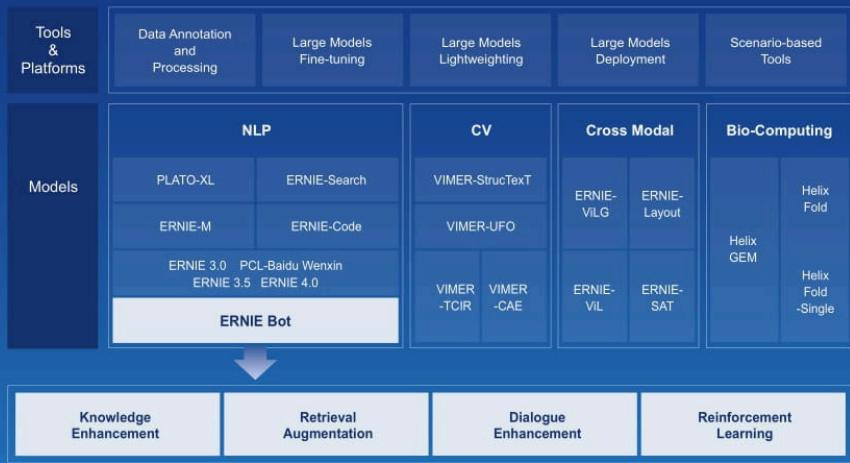

Easily Integrated wherever you build

Join us at the event between January 19th to 24th and learn how AI models can drive efficiency, unlock insights, and enhance your decision-making.

BAIDU WENXIN

A series of knowledge-enhanced large models, from general-purpose to industry-specific, independently developed by Baidu, speed up AI innovations and empower the industry to upgrade.

ERNIE Knowledge - Enhanced Large Models

Your high quality data partner for GenAI development

Demonstrations collection
for SFT

Preferences collection
for RLHF / DPO

Evaluation and Red Teaming

40+
languages supported

Visual, audio and creative models

10+
code languages

Responsible AI

20+
knowledge domains

Autonomous agents

10k
prompt-completion pairs
per week per domain

Text generation models

200k
aligned pairs per week
